Brock K. Phillips Sr.

Nuvara founder · U.S. Army veteran · Systems and workflow builder

brock@nuvaraai.com | nuvaraai.github.io/brockphillipssr | nuvaraai.com/contact

Founder of Nuvara and U.S. Army veteran with a background in counterintelligence, federal benefits review, equipment maintenance, and youth programs. I bring evidence analysis, clear documentation, and operational judgment to human-directed AI projects, technical systems, and practical learning tools.

CORE CAPABILITIES

Evidence analysis, investigative interviewing, record reconciliation, procedural compliance, product direction, technical documentation, and quality review.

PROFESSIONAL EXPERIENCE

Founder and Principal

Nuvara | 2025-present

- Translate practical needs into AI-assisted web systems, documented workflows, and learning tools.
- Direct product scope, implementation, technical documentation, and quality review while maintaining human control over consequential decisions.
- Organize source evidence, operating procedures, and project status so completed work, prototypes, and remaining dependencies are clear.

Veterans Service Representative

U.S. Department of Veterans Affairs | February 2020-present

- Review federal benefits evidence, proposed actions, and notices for technical accuracy, completeness, and procedural compliance.
- Reconcile records, identify conflicting or missing information, and document corrective guidance needed to resolve deficiencies.
- Maintain organized case documentation and protect confidential information during review and quality oversight.

Youth Program Assistant / Youth Sports and Fitness Specialist

Department of the Army | 2014-2020

- Coordinated sports, fitness, and youth activities, including schedules, equipment, program records, and accountability procedures.
- Monitored safety practices and documented program requirements for supervisory review.
- Worked with families and program staff to provide clear service and apply program standards consistently.

Sergeant · Counterintelligence and Utilities Equipment Repair

U.S. Army | July 1997-March 2014 military service

- Served 3 years and 1 month in counterintelligence; earlier utilities equipment repair specialty totaled 13 years and 1 month.
- Conducted investigative and analytical inquiries, reconciled information from multiple sources, and prepared written reports and briefings.
- Supported equipment maintenance, safety, inventory, operations, and personnel training.

Technical work & development

Brock K. Phillips Sr. | Human-directed, AI-assisted projects

SELECTED PROJECT PRACTICE

Nuvara platform and Core / HALO workflows

Directed a public website and private AI operating workflows with task policies, evidence receipts, diagnostics, and documented release boundaries.

Scope: Public website live; private systems continue through separate readiness checks.

CyberTex infrastructure and cloud capstone

Led lab direction and evidence organization for Proxmox, Windows Server, Active Directory, DNS/DHCP, and team cloud architecture documentation.

Scope: Documented lab observations and architecture deliverables; final live application integration remains separate.

TECHNICAL PROJECT PRACTICE

Proxmox VE, Linux, Windows Server / Active Directory, DNS / DHCP, virtualization, Git, responsive web delivery, and AI-assisted JavaScript / TypeScript / Python projects. Requirements, source tracking, operating procedures, and regression review support the work.

EDUCATION

Associate of Arts | General Studies, Criminal Justice Curriculum

University of Maryland Global Campus, formerly UMUC | Awarded May 2016

Network Engineer training | Infrastructure, networking, and cloud coursework

CyberTex Institute of Technology | In progress as of October 2026

COMPLETED COURSES

These records document completed courses through uCertify and Cisco Networking Academy. They do not establish vendor certification exam credentials.

COURSE	PROVIDER	COMPLETED
CompTIA A+ Core 2 (220-1202)	uCertify	2025-12-23
Computer Hardware Basics	Cisco Networking Academy	2026-01-18
CompTIA Linux+	uCertify	2026-06-01
CompTIA Security+ (SY0-701)	uCertify	2026-08-06
CompTIA Server+	uCertify	2026-10-01
AZ-900: Microsoft Azure Fundamentals Certification Training	uCertify	2026-10-01
CompTIA CYSA+ (CS0-003)	uCertify	2026-10-03
AWS Certified Cloud Practitioner (CLF-C02) training	uCertify	2026-10-14
